EXAMINER'S AMENDMENT

Election/Restrictions

Newly submitted claims 26-28 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: these claims recite methods which can be performed by products patentably distinct from the product claimed.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 26-28 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, 9 and 10, drawn to an inertial barrier, classified in class 404, subclass 6.
- II. Claims 21-25, drawn to an inertial barrier system, classified in class 256, subclass 13.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as

claimed because Invention II does not require the specific structure claimed in Invention I. The subcombination has separate utility such as construction zone safety device, for example.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Donald E. Stout on August 5, 2004 a provisional election was made without traverse to prosecute the invention of I, claims 1-5, 9 and 10.

Affirmation of this election must be made by applicant in replying to this Office action. Claims 21-25 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald E. Stout on August 6, 2004.

The application has been amended as follows:

Claim 1, line 8, "other" has been deleted and replaced with --corresponding--;

Claims 21-28 have been canceled.
